EDUCATION

Double M.Sc. in Industrial Engineering and Management + M.Sc. in Machine Learning, KTH Stockholm | 2025 – 2027
Civilingenjör Industriell Ekonomi, master i Maskin Inlärning
Covering AI applications, deep learning, probabilistic modeling, RL, optimization, LLMs and large-scale data analysis with extensive hands-on projects using real-world datasets and related to businesses.

Bachelor of Science in Industrial Engineering and management, KTH Stockholm | 2022 – 2025
Bachelor thesis: *ML-Driven Predictive Maintenance for Mining*.
Developed a machine-learning prototype for **Epiroc AB** using historical sensor data to predict equipment condition. Demonstrated potential to cut unplanned downtime by 20-30%, enabling significant operational cost savings.

Örebro University Örebro | 2022
Standalone Course: Practical Finance
Applied economic models to real-life financial decisions including saving, investing and housing.

EXPERIENCE

First Momentum Ventures Remote, München | Oct 2025 - ongoing
Venture Scout
- Represent a pre-seed deep & industrial tech fund (>50 portfolio companies) within the Stockholm startup ecosystem
- Source and evaluate founders in AI/ML and deep tech; conduct market, product, and team assessments
- Build pipeline by facilitating introductions between founders and the investment team

JPMorgan Chase Remote | July 2025
Investment Banking Job Simulation Program
- Identified an ideal M&A target for a client by assessing strategic and financial criteria
- Constructed a DCF model to calculate the valuation of the M&A target
- Adjusted the valuation model to account for a competitor bid and supply chain interruption
- Created a company profile and summary of an auction process for the client

Deloitte Remote | June 2025
Data Analyst Online Internship Program
- Analyzed and visualized datasets using Excel and Tableau to support data-driven decision-making

KTH Hyperloop Stockholm| 2023 – 2025
S&P Manager
- Identified and engaged potential sponsors to foster partnerships for project funding and equipment supply

Ingenjörskapital, KTH Student Association Stockholm| 2023 – 2024
Investment Analyst
- Managed the student association's savings portfolio as part of a student-driven investment fund team
- Conducted investment analysis, equity research, and valuation

Face2Face Stockholm, Sweden
Sales Representative
- Successfully sold electricity contracts in a competitive direct sales environment
- Consistently exceeded sales targets and contributed to team goals

HONORS & AWARDS

Top 3 Winner – QuantumBlack x Lovable Finance Hackathon
- Built *FX Sentinel*, an AI tool for CFO risk analysis, collaborating with a newly formed team under 3 hours.

Nordea-X-Amazon AWS AI Hackathon Winner
- Awarded first place for the technical solution among competing teams
- Developed a solution for document comparison to analyze differences between versions of legal documents

Quant Finance Challenge Winner, G-Research
- Recognized for exceptional ability in solving quantitative finance problems with a focus on optimization and trading

SKILLS

Machine Learning:

- **Models:** Deep Learning (CNNs, RNNs), Reinforcement Learning, Probabilistic Models, Transformers, Support Vector Machines (SVMs)
- **Theory:** Statistical Learning Theory, Bayesian Methods, Optimization for ML
- **Applications:** Natural Language Processing (NLP), Computer Vision, Predictive Modelling
- **Frameworks:** PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy

Programming: Python, Java, Swift, Swift UI, Docker
Cloud & Data: Google Cloud Platform, Tableau and data visualization, Statistical Analysis, Data Cleansing,
Finance & Accounting: Financial Analysis, financial models, debt transactions, corporate finance
DCF Evaluation, Capital Structure, Budgeting, Fortnox
Web Development: JavaScript, React.js, Node.js, Vue.js, Express, CSS, PostgreSQL, MongoDB
Web Design: Tailwind CSS, Figma, bootstrap, Canvas, photoshop
MS Office: Excel, PowerPoint

Recent Projects

Pomo.Best Founder & Developer | Web | 2025 – Present

- Built and launched a minimalist AI powered productivity app for students and professionals
- Responsible for product design, implementation, SEO, marketing, analytics and deployment end-to-end
- Reached **400 active users** to date through organic adoption and word of mouth

AfterLove.dev Founder & Developer | Web | 2025 – Present

- IT consulting company that helps clients further develop their app and websites.
- take products that are 80% completed by no-code agents (e.g. lovable) and develop them into fully launch-ready solutions**.**
- 4 completed projects so far.

LANGUAGES

- **Swedish:** Bilingual proficiency
- **English:** Professional proficiency
- **Persian:** Mother tongue
